Re: Monthly Report on Human Rights Violations in Iran (22 December 2014 – 20 January 2015)

Dear Dr. Ahmed Shaheed,

We would like to express our profound gratitude for your commitment in preparing regular reports on human rights violations in the Islamic Republic of Iran. We extend our appreciation to the international community for tireless efforts to promote human rights as a universal value, and for taking urgent measures to end the practice of arbitrary arrest, imprisonment, gender and religious discrimination, torture, rape, public execution, and other shameful crimes against humanity in Iran. Together, we stand united in strongly and unequivocally condemning these ongoing human rights violations.

With our shared respect for noble principles of the UN Declaration of Human Rights, we have constituted the Human Rights Commission of the Iran National Council for Free Elections to ultimately abolish the death penalty, help the release all prisoners of conscience, and secure basic rights and freedom of all Iranians. We have prepared the attached monthly report on select cases of Humans Rights Violations between December 22, 2014, and January 20, 2015. This report provides an overview with a list of newly detained prisoners of conscience and references to assault on freedom of opinion and expression, status of prisoners' of conscience, recent executions, violation of children-, women-, ethnic-, and religious minorities' rights, etc. It is our sincere hope that this report will help the international community to address the dire human rights situation in Iran. We salute your leadership and moral support for realizing our common aspirations, namely the equality of mankind.

Yours sincerely
